## Standards Addressed in NorthBay Education Lessons

# Common Core and Maryland College and Career-Ready Standards for Middle School ELA \& Mathematics 

## Writing ${ }^{1,2}$

W.6.7 Conduct short research projects to answer a question, drawing on several sources and refocusing the inquiry when appropriate
W.7.7 Conduct short research projects to answer a question, drawing on several sources and generating additional related, focused questions for further research and investigation.
W.8.7 Conduct short research projects to answer a question (including a self-generated question), drawing on several sources and generating additional related, focused questions that allow for multiple avenues of exploration.
W.6-8.1 ${ }^{3}$ Write arguments to support claims with clear reasons and relevant evidence.

Speaking and Listening
SL.6-8.1 Engage effectively in a range of collaborative discussions (one-on-one, in groups, teacher-led) with diverse partners on grade 6-8 topics, texts, and issues, building on others' ideas and expressing their own clearly.
SL.6-8.4 Present claims and findings, emphasizing salient points in a focused, coherent manner with relevant evidence, sound valid reasoning, and well-chosen details; use appropriate eye contact, adequate volume, and clear pronunciation.

[^0]
## Standards Addressed in NorthBay Education Lessons

## Language

L.6-8.1 Demonstrate command of the conventions of standard English grammar and usage when writing or speaking
L.6-8.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing
L.6-8.3 Use knowledge of language and its conventions when writing, speaking, reading or listening.

## Reading Information

RI.6.7 Integrate information presented in different media or formats (e.g., visually, quantitatively) as well as in words to develop a coherent understanding of a topic or issue.

## Mathematics Ratio and Proportion

6.RP. 1 Understand the concept of a ratio and use ratio language to describe a ratio relationship between two quantities.
7.RP.A. 2 Recognize and represent proportional relationships between quantities.

## Mathematics Geometry

6.G.A. 1 Find the area of right triangles, other triangles, special quadriaterals, and polygons by composing into rectangles or decomposing into triangles and other shapes; apply these techniques in the context of solving realworld and mathematical problems.

## Statistics and Probability

6.SP.A. 1 Recognize a statistical question as one that anticipates variability in the data related to the question and accounts for it in the answer
6.SP.B. 5 Summarize numerical data sets in relation to their context.

## Writing Literacy: A Common Core Standard

WHST.6-8 . 7 Conduct short research projects to answer a question (including a self-generated question), drawing on several sources and generating additional related, focused questions that allow for multiple avenues of exploration.

## Standards Addressed in NorthBay Education Lessons

## Reading Informational Text: A Common Core Standard

| $\begin{array}{l}\text { RST.6-8.3 Follow precisely a multistep procedure when carrying out experiments, taking measurements, or } \\ \text { performing technical tasks. }\end{array}$ |
| :--- |

## Engineering Design

| MS-ETS1.B Developing possible solutions |  |  |  |  | $\checkmark$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Earth and Human Activity |  |  |  |  |  |
| MS-ESS3-3 Apply scientific principles to design a method for monitoring and minimizing a human impact on the environment. | $\checkmark$ | $\checkmark$ | $\checkmark$ | $\checkmark$ | $\checkmark$ |
| MS-ESS3-4 Construct an argument supported by evidence for how increases in human population and per-capita consumption of natural resources impact Earth's systems. |  | $\checkmark$ |  |  |  |
| NGSS High School |  |  |  |  |  |
| Life Science |  |  |  |  |  |
| HS-LS2-5 Develop a model to illustrate the role of photosynthesis and cellular respiration in the cycling of carbon among the biosphere, atmosphere, hydrosphere, and geosphere. |  |  |  | + |  |
| Earth and Human Activity |  |  |  |  |  |
| HS-ESS2-6 Develop a quantitative model to describe the cycling of carbon among the hydrosphere, atmosphere, geosphere, and biosphere |  |  |  | + |  |

[^0]:    
    Standards that are not included in Maryland's College and Career-Ready standards are labeled as "Common Core."
    ${ }^{2}$ Maryland College and Career-Ready Standards for ELA acquired from
    https://mdk12.msde.maryland.gov/INSTRUCTION/StandardsandFrameworks/ela/SiteAssets/HomePage/MCCRS\%20Middle\%20School\%20(6-8)\%20(2).pdf
    ${ }^{3}$ Standards that were the same across grades are presented in this format, i.e. "6-8"
    ${ }^{4}$ The " + " symbol indicates a standard could be met if the lesson is implemented and directed by a teacher
